WHO IS ELIGIBLE?

Associates working 30 or more hours per week are eligible for the benefits outlined in this overview. In order to comply with the Affordable Care Act (ACA), Essex determines your eligibility for medical coverage based on the number of hours you work each month.

You can enroll the following family members in our medical, dental and vision plans.

- Your spouse (the person who you are legally married to under state law, including a same-sex spouse.)
- Your registered domestic partner is eligible for coverage if you have completed a Domestic Partner Affidavit. The affidavit includes important information about the guidelines for adding, ending or changing your domestic partner. Premiums for your domestic partner paid for by Essex are taxable income and will be included on your W-2. Any premiums you pay for your domestic partner will be deducted on an after-tax basis.

- Your children (includes your stepchildren, children by adoption or legal guardianship):
 - ✓ Under the age of 26 are eligible to enroll in medical coverage. They do not have to live with you or be enrolled in school.
 - ✓ Over age 26 ONLY if they are incapacitated due to a disability and primarily dependent on you for support.
 - ✓ Named in a Qualified Medical Child Support Order (QMCSO) as defined by federal law.

WHO IS NOT ELIGIBLE?

Family members who are not eligible for coverage include (but are not limited to):

- Parents, grandparents, and siblings.
- Contract associates or associates residing outside the United States.
- Part-time: Associates who work less than 30 hours per week.

NOTE: Full-time temporary employees are eligible for **medical benefits only**.

My benefits are effective: _____

- 2 OPEN ENROLLMENT:** Open Enrollment for current associates is generally held in November. Open Enrollment is the one time each year that associates can make changes to their benefit elections without a qualifying life event. Open Enrollment changes are effective January 1 of each year.

Key Terms You Need to Know

Health insurance seems to have its own language. You will get more out of your plans if understand the most common terms, explained below in plain English.

MEDICAL

OUT-OF-POCKET COST: A healthcare expense you are responsible for paying with your own money, whether from your bank account, credit card, or from a health account such as an HSA, FSA or HRA.

COPAY: A set fee you pay whenever you use a particular healthcare service, for example, when you see your doctor or fill a prescription. After you pay the copay amount, your health plan pays the rest of the bill for that service.

IN-NETWORK / OUT-OF-NETWORK: Network providers are contracted with your health plan and have agreed to charge lower fees to plan members. Services from out-of-network providers can cost you more because the providers are under no obligation to limit their maximum fees. EPOs and HMOs have no coverage out-of-network except in an emergency.

OUT-OF-POCKET MAXIMUM: The most you would pay for covered healthcare expenses in one year. Once you reach your plan's out-of-pocket maximum dollar amount (by paying your deductible and copays), the plan pays for all eligible expenses for the rest of the plan year.

PRESCRIPTION DRUG

GENERIC: A drug that has the same active ingredients as a brand name drug, but is sold under a different name. For example, Atorvastatin is the generic name for medicines with the same formula as Lipitor. You generally pay a lower copay for generic drugs.

PREFERRED/NON PREFERRED BRAND: Each health plan has a list of prescription medicines that are preferred based on an evaluation of effectiveness and cost. Another name for this list is a "formulary." The plan may charge more for non-preferred drugs or for brand name drugs that have generic versions. Drugs that are not on the preferred drug list may not be covered.

DENTAL

BASIC SERVICES: Dental services such as fillings, routine extractions and some oral surgery procedures.

DIAGNOSTIC AND PREVENTIVE SERVICES: Generally include routine cleanings, oral exams, x-rays, and fluoride treatments. Most plans limit preventive exams and cleanings to two times a year.

MAJOR SERVICES: Complex or restorative dental work such as crowns, bridges, dentures, inlays and onlays.

GOING TO THE DOCTOR?

Being organized and having a plan helps to get the most out of your doctor visit. Bring the following with you:

- Your plan ID card
- A list of your current medications
- A list of what you want to talk about with your doctor

If you need a medication, you could save money by asking if there are generic alternatives for your specific medication.

The Suncare benefit allows you to use the frame allowance toward non-prescription sunglasses in lieu of prescription frames and lenses.

Cost of Coverage

Essex pays the full cost for Associate only coverage for Basic Life and AD&D. The Employee Assistance Program is also free of charge to you and your family. You share in the cost of coverage for other plans and coverage levels. In general, you pay for health coverage before federal, state and social security taxes are withheld, so you pay less in taxes. However, domestic partner coverage may be taxed differently. Talk to a tax advisor if you have questions about how this applies to your specific situation.

Flexible Spending Account (FSA)

A Flexible Spending Account lets you set aside money—before it's taxed—through payroll deductions. The money can be used for eligible healthcare and dependent day care expenses you expect to have over the next year. The main benefit of using an FSA is that you reduce your taxable income, which means you have more money to spend. For the Healthcare FSA, you can only carry over \$500 of your unused funds to the next plan year, so plan carefully. WageWorks is the administrator for the FSA accounts at Essex.

HEALTHCARE FSA ACCOUNT

This plan allows you to pay for eligible out-of-pocket healthcare expenses with pre-tax dollars.

Annual Allowed Contribution:

Minimum: \$200

Maximum: \$2,700*

Examples of Eligible Expenses:

Medical, dental, or vision costs including plan deductibles, copays, coinsurance amounts, and other non-covered healthcare costs for you and your tax dependents

Important! You may access your entire annual election from the first day of the plan year. Visit fsastore.com for a full list of eligible expenses.

DEPENDENT CARE FSA ACCOUNT

This plan allows you to use pre-tax dollars for eligible out-of-pocket dependent care expenses related to care for your child under the age of 13, disabled spouse, elderly parent, or other tax dependent who is incapable of self care so you can work.

Annual Allowed Contribution:

Minimum: \$500

Maximum: \$5,000*

Examples of Eligible Expenses:

Daycare centers, in-home child care, and before or after school care for your dependent children under age 13. Fees for adult care and elder care.

All caregivers must have a tax ID or Social Security number. This information must be included on your federal tax return. Consult your tax advisor for help determining if a dependent care FSA is best for your specific situation.

Important! You can access money only after it is placed into your dependent care FSA account.

IMPORTANT HEALTHCARE AND DEPENDENT CARE FSA CONSIDERATIONS

- Expenses must be incurred between 01/01/20 and 12/31/20 and submitted for reimbursement no later than 03/31/21.
- You must re-enroll each year and elections cannot be changed during the plan year, unless you have a qualified change in family status.
- You can roll-over **up to \$500** of unused healthcare FSA funds for use in the next plan year. Unused amounts **above \$500** will be lost.
- FSA funds can be used for you, your spouse, and your tax dependents only; even if they are not covered by the Essex health plan.
- You cannot obtain reimbursement for eligible expenses for a domestic partner or their children, unless they qualify as your tax dependents.
- The IRS has a list of approved items and services that can be reimbursed from an FSA, if you are in doubt check the list of health care or dependent care expenses.

You are automatically enrolled in the traditional 401(k) plan through Fidelity on the 1st of the month following 30 days of employment at a 2% deferral rate. You can make a change to your deferrals or opt out at any time. Essex offers a traditional 401(k) and a Roth option.

The difference between our two options relates to when you will pay taxes on your contributions. With a traditional 401(k) your contributions are made pre-tax, and you will pay taxes when you withdraw money. The Roth 401(k) option requires you to pay taxes on the money you invest now, but no taxes when you withdraw the money at retirement.

Unsure which is the right option? Take advantage of the free financial planning services listed below.

Maximum Annual Contribution	IRS annual limit on contributions (\$19,000* in 2020 for both traditional and Roth options combined or \$25,000* if you are over 50 years old)
