

# Parking area improvements

We will be applying a slurry seal and restriping the parking areas to keep them looking great.

Parking area: \_\_\_\_\_

Date: \_\_\_\_\_

Time: \_\_\_\_\_ to \_\_\_\_\_

The full work schedule has been posted and/or mailed to you.

While your parking area is being worked on, please find an alternate location to park. If your vehicle is not moved before work begins, we will have to tow it at your expense.

The oil-based asphalt can destroy shoes, vehicles, sidewalks and carpeting, so be sure to avoid the parking area during the drying process.

Thanks for your patience and understanding!
